

KASTE Interior panel

The KASTE panels are opaque white panels with splash-shielded surfaces, making them perfect for paneling wet spaces. The concealed fixing of the panels provides protection against the harmful effects of water, and the end-jointing makes installation easier and faster.

KASTE Interior panel

While the water durability of KASTE panels has been improved, they still cannot withstand direct water exposure. As a result, the panels are not suitable for use in saunas. Treating cut surfaces during installation is essential to prevent cracking. Installing waste 5-10%.
